

## CIT Staff Celebrated Lantern Festival with Teachers and Students of Camden School of Arts and Technology

On March 6, 2015, the staff and students of Confucius Institute at Troy University (CIT) visited Camden School of Arts and Technology in Wilcox County. With the support from Mr. Andrea Davis, the principal, who gathered the students at their auditorium, the CIT team first invited them to experience Chinese culture and then presented a traditional Lantern Festival party. The event lasted for two and half hours. The on-site paper-cutting, writing calligraphy and learning to use chopsticks were going on orderly and cheerfully. Traditional dancing and singing, martial arts (Kung Fu) and calligraphy show presented by CIT staff and students enjoyed great popularity. The whole event was well acclaimed by all present the show. The principle invited us to return for another visit for discussing setting up a Confucius Classroom/ Site.
