

Friday a.m.

Dear Father & "Little Mother",

Your letters of the 7<sup>th</sup> & 10<sup>th</sup> respectively came yesterday a.m. and one from Arthur dated May 20<sup>th</sup> came this a.m. so I shall proceed immediately to tell you what he said, although you have perhaps received one too.

He said he was well and getting on fine, weighed 155  $\frac{3}{4}$  lbs, and that he surely was seeing a great many interesting sights.

The Colonel told him he thought the Division would leave for home before long which of course sounds good to us, but I am not expecting him until I see him, you know I always said I wouldn't believe he was home until I actually had my hands on him.

The package hasn't come as yet but I shall thank you for it for I surely do appreciate your thinking about me.

Nellie took some pictures of the baby in his bath tub and if they are good I will send you all some. Mother is feeling much better and of course I feel very much relieved.

My Dothan surely is one place to marry the teachers, I surely hope Dora will be happier now than she has been at home, where is she making her home?

I took Uncle Alex's car out yesterday, it surely did seem good to be driving again.

With love to you both from Mother and I am your loving little bother girl,  
Joyce.
