The Chancellor invited everyone to join the University on the afternoon of March 10th at 2:00 p.m. for a very special dedication ceremony of the Chi Omega Sorority House.

Chancellor Hawkins called upon Joe Hutto, outgoing Student Government Association President, to make a presentation to the Board. Mr. Hutto reported that the SGA President-elect is Andrea Roberts. Mr. Hutto gave a brief report on SGA activities and accomplishments during the past year. He said each year the SGA holds a retreat and this year it was tied in with the Trojans football game against Florida State. The car tag program was one of the many projects promoted to the student body. He talked about the establishment of “Trojan Thursdays” where local businesses would give discounts to students on Thursdays if they were wearing Trojan attire. Mr. Hutto highlighted many other projects the SGA sponsored throughout the year and said that it has been an exciting year for the students at Troy University. He concluded his report by thanking the Board of Trustees for the support provided the student body.

The Chancellor talked briefly about the University’s Center for International Business and Economic Development (CIBED) and said the Center has received the endorsement of Mr. Neal Wade, Director of the Alabama Development Office.
Chancellor Hawkins then called upon Dr. Judson Edwards, Director of the Center for International Business and Economic Development and Associate Professor of Economics, who reported on economic development initiatives of the Center. Dr. Edwards stated that the “cornerstone” of the Center would be a program that will offer formal academic programs at the graduate and undergraduate levels in international economic development and will serve as a “mechanism to extract economic development benefits throughout the global infrastructure of the University and then deliver to the State of Alabama.” Dr. Edwards said the program will have an applied “real world” focus for the students and they will learn by working with local economic developers across the state. Students will be able to earn a Master in Business Administration with an international economic development concentration. Dr. Edwards concluded by saying that “the creation of the Center for International Business and Economic Development exemplifies the commitment of Troy University to formalize and enhance its position as an economic development engine for the State of Alabama.”

Following Dr. Edwards’ presentation, Mr. Neal Wade commented that “this program will provide the training for the next generation of economic developers in Alabama.”

College of Education Facility

WHEREAS, the College of Education of Troy University (the "University") has experienced significant growth in the numbers of students attending the Troy campus of the University, undergraduate and graduate, who have chosen to concentrate in this field of study; and

WHEREAS, the increased interest in this field of study has spurred the need for additional classroom and related facilities at the Troy campus; and

WHEREAS, the Chancellor and senior administrative staff of the University have investigated various options for addressing this need for new facilities, as part of which a financial analysis has been undertaken to evaluate the costs and benefits of the various options; and

WHEREAS, the Chancellor and staff have reached certain conclusions as to the optimal size and composition of such additional facilities for the College of Education and the current estimated costs thereof, which are not expected to exceed $10,000,000, and have further concluded that the most advantageous method of financing such costs would be through the issuance by the University of bonded indebtedness on a federally tax-exempt basis, secured by a pledge of the University's general student fee revenues.

THEREFORE, BE IT RESOLVED by the Board of Trustees of the University this 4th day of August, 2006, that the Chancellor be and is hereby authorized and directed to proceed with the development of detailed plans for the construction and equipping at the Troy campus of new classroom and related facilities for the College of Education at a total cost not to exceed $10,000,000 (the "Project").

BE IT FURTHER RESOLVED that the Chancellor be and is hereby authorized and directed to negotiate the sale of bonds for the Project, along the lines described above, in an aggregate principal amount commensurate with the estimated cost thereof.

BE IT FINALLY RESOLVED that, in the event that all or any portion of the costs of the Project may be financeable on a federally tax-exempt basis, the Board of Trustees hereby determines that this resolution is intended to and shall constitute the University's "official intent" (within the meaning of Section 1.150-2 of the Regulations under the Internal Revenue Code of 1986, as amended (the "Code")) with respect to so much of the Project as may be so financeable and with respect to the issuance of the University's bonds in an amount equal to so much of the $10,000,000 estimated cost of the Project set forth above as may be issuable on a federally tax-exempt basis. To the extent that reimbursement to the University of costs incurred and paid by the University or others toward the Project is permitted, under the Code and the Regulations of the Internal Revenue Service, to be made from proceeds of such bonds, such reimbursement is intended and authorized hereby.
