IV. Agenda

Resolution No. 1 – Tuition for the 2005–06 Academic Year

Mr. Harrison reported that the Finance Committee had reviewed the tuition proposal for a four-percent for 2005-2006 and recommends that Resolution No. 1 be approved.

ACTION: Mr. Harrison made a motion to adopt Resolution No. 1. A second was provided by Mr. Nailen. There being no further discussion, Resolution No. 1 was approved.

Resolution No. 1

Tuition for 2005-06

WHEREAS, the Board of Trustees, at its retreat on March 11, 2005, received a thorough briefing on the possibility of a tuition increase for 2005-06, including information on projected revenues and expenditures; and

WHEREAS, the Board did, on March 11, 2005, approve the Chancellor to continue to monitor the results of the legislation budget process; and

WHEREAS, revenue and expense projections continue to be similar to those presented in the March 11, 2005, briefing; and

WHEREAS, a review of room and board fees suggest that these fees should remain as set for the 2004-05 year; and

WHEREAS, all these matters have been considered;

THEREFORE, BE IT RESOLVED BY THE BOARD OF TRUSTEES, that tuition for the in-state campuses of Troy University shall be in accordance with the attached tuition schedule.
BE IT FURTHER RESOLVED, that the fees for room and board remain the same as the 2004-05 year as indicated on the attached Room and Board Proposal.

a. 2005 Board of Trustees Status Report to the Alabama Commission on Higher Education (ACHE)

Mr. Higgins was called upon to introduce the above topic and he called upon Dr. Roach to brief the Board. Dr. Roach reported that the Alabama Commission on Higher Education has asked that each university’s Board of Trustees present a report showing how the goals and objectives of the university are consistent with the Alabama Plan for Higher Education. The following draft report was shared with the Board for its review and approval.

ACTION: Mr. Higgins moved for adoption of the plan. Seconded by Mr. Harrison, the proposed presentation to ACHE, as follows, was approved.
Troy University Board of Trustees
Report On the Statewide Plan for
Higher Education of Alabama
May 2005
Introduction

The Troy University Board of Trustees shares the goals of access, cooperation, quality, resource enhancement, and workforce development as outlined by the Alabama Commission on Higher Education (ACHE). These goals are at the heart of the University’s merger of the institutions comprising the Troy State University System, a process that began officially in 2000. At its most fundamental level, this process consisted of taking three separately accredited institutions and unifying them under one academic accreditation.

This report will show the relationship between the goals of the ACHE plan and the Board of Trustees goals which led to the unification of Troy University. In addition, the university is in the first phase of developing its new strategic plan for 2005-2010—Vision 2010. All University planning efforts reflect the State Plan, and further each objective in the new plan is tied to University Strategic Initiatives, State Plan Goals and University Goals as follow.

Purpose of the State Plan for Alabama Higher Education and The Mission of Troy University

The purpose of the State Plan is “(1) to focus public attention on important strategic issues facing Alabama higher education and the state; (2) to articulate Alabama’s needs and its vision for higher education; (3) to commit resources necessary to provide high quality teaching, scholarships, research, and public service programs for Alabama citizens; and (4) to promote stronger working relationships among stakeholders with an interest in establishment of common goals and the resolution of issues related to the improvement of higher education in Alabama.”

While the purpose of the State Plan is to set forth possibilities, the mission of Troy University is to make possibilities a reality:

Troy University is a public institution comprised of campuses throughout Alabama and worldwide. International in scope, Troy University provides a variety of educational programs at the undergraduate and graduate levels for a diverse student body in traditional and nontraditional and emerging electronic formats. Academic programs are supported by a variety of student services, which promote the welfare of the individual student. Troy University’s dedicated faculty and staff promote discovery and exploration of knowledge dedicated to life-long success through effective teaching, creative partnerships, scholarship and research.
At the highest level Troy University addresses each of the four-part purpose statement. Both missions assist citizens statewide, both champion higher education as the means to address state needs, and both have the uppermost regard for quality and cost effectiveness. Troy University’s mission contains the very essence of the state plan: “Troy University’s dedicated faculty and staff promote discovery and exploration of knowledge dedicated to life-long success through effective teaching, creative partnerships, scholarship and research.”

State Plan Goals and Troy University Goals and Actions

**State Plan Goal 1—Access:** Elevate the educational attainment levels of all citizens.

- Through its College of Education, Troy University trains teachers for Alabama’s classrooms.
- TROY, with its leadership in the development of the AGSC/STARS Program, helps students in Alabama community colleges transfer to universities without loss of academic credit.
- As of fall semester 2004, between 8,000-9,000 students enrolled on TROY’s campuses in Alabama are classified as adult “nontraditional” students. Troy University makes education accessible for adults by offering classes in the evenings, on weekends and over the Internet.

1. **Troy University Goal:** Provide a variety of undergraduate and graduate programs in traditional, non-traditional and electronic formats.

2. **Troy University Goal:** Maintain a diverse student population.

**State Plan Goal 2—Cooperation:** Offer relevant educational programs that address economic, intellectual, and social problems by partnering with business, government, K-12, and private sector entities.

- Troy University has identified almost 125 separate partner organizations or agencies, ranging from municipalities, K-12 schools, private firms and state or federal agencies.

1. **Troy University Goal:** Ensure the development of creative partnerships, scholarship and research.
2. **Troy University Goal: Provide services that promote the individual welfare of students.**

**State Plan Goal 3—Quality:** Strengthen instructional programs, evaluate and assess their effectiveness, and use the results to improve quality.

Troy University’s transformation from a system to a unified university will enhance the academic mission of the University in several ways:

1. **Accreditation.** One institution will eliminate the need to seek separate SACS/specialized accreditation processes, resulting in a reduction of faculty/staff time and cost savings while achieving the same end.
2. **Program viability.** Troy University’s main campus already enjoys the highest program viability among Alabama public colleges and universities. Unification of system campuses would immediately enhance program viability at the Dothan and Montgomery campuses.
3. **Eliminate duplication.** The University will issue one academic calendar, one faculty handbook, one student handbook, one undergraduate bulletin and one graduate bulletin system-wide.
4. **Better Positioned for academic excellence.** Troy University will be in better position to expand graduate school to include need-driven programs. This will build on the University’s status as the largest provider of graduate degrees in Alabama.
5. **Extensive use of higher education technology.** Troy University will be on the leading edge of digital programming and distance learning programming.
6. **Greater job and career options.** A much larger and more visible university will gain more attention from other graduate schools and corporations.

As part of its transformation, TROY worked extensively with the Commission on Colleges of the Southern Association of Colleges and the Alabama Commission of Higher Education to ensure quality was maintained every step of the way.

Quality improvement is ongoing as is monthly review of strategic plans. There is also an annual leadership conference wherein the leaders of the University (some 154 in 2004) review the state of the institution. Chancellor Hawkins also meets bi-weekly with his cabinet and the senior vice chancellors of the institution.
1. Troy University Goal: Ensure effective teaching.
2. Troy University Goal: Maintain a dedicated faculty and staff.

State Plan Goal 4—Resources: Strive for a sustained level of funding that will allow citizens to reach educational objectives, attain cultural and social goals, and position Alabama to compete economically in the region.

- Troy University is in the initial phase of a capital campaign to help offset capital and large programmatic needs of the institution.
- Troy University will be conducting an economic impact study to gain a better understanding of how it affects the region and state.
- Troy University’s merger of three institutions into one will save the state of Alabama $16 million over the next 10 years.
- Troy University’s Office of Sponsored Programs reported funding of grants and contracts of more than $10 million for fiscal year 2003-2004. In 1990, total grants and contracts activity for Troy was less than $300,000.

1. Ensure efficient and effective operations and to assess and provide resources as needed to implement institutional mission, goals and objectives.

State Plan Goal 5—Workforce Development: Enhance economic prosperity by involving all segments of public education in Alabama’s economic future.

- Troy University has partnered with the Alabama Development Office to share office space at the TROY site in Heidelberg, Germany, and to help recruit business for Alabama. A similar arrangement for Korea is in the planning stages.
- Troy University maintains strong elementary and secondary certification programs and CEUs for teachers as well as advanced degrees. Given this track record it will continue to explore a doctorate degree in educational leadership over the next five years.
- Troy University graduates more persons with masters programs than all other state colleges and universities combined. It is also exploring IT-based degree options more in-line with market-driven needs.
• Through the creation of an international economic development center on the Troy campus, the university will continue to lead the way for helping all segments of the population reach out to and bring the world to Alabama.
• Troy University is a life-long learning institution. Across the state, nation and world one can find members of the United State Armed services who would not have their current level of educational attainment without this institution.

1. Promote discovery and exploration of knowledge dedicated to life-long learning success.

Conclusion

It is the opinion of the Board of Trustees of Troy University that this institution is an Alabama treasure providing quality education, partnerships and multiple levels of economic development for the state. Over the course of the next five years we fully expect the university will lead the way in its entrepreneurial spirit to do even more for its students and all citizens of the state of Alabama.
